- Permanently reduces hair taking on average just six treatments.
  - Gives amazing results on the most stubborn areas
  - Innovative laser machine: "Lightsheer Duet" – it is an 800nm diode laser (best wavelength for permanent hair reduction).
  - Usual reduction of 80% with 6 Treatments.
  - Laser cannot work on white, grey, very blonde or very fine hair
  - Suitable for all skin types
  - Specialist in Asian skin – all areas available

---

**2 hand pieces of different sizes gives the BEST hair removal and the FASTEST treatment times – even on stubborn areas.**

- **Hand Piece 1** has a chill tip with continuous contact cooling to help reduce pain and sensitivity. It is ideal for smaller and awkward-to-reach areas and finer hair.
- **Hand Piece 2** has the largest spot size of any hair removal laser allowing for much quicker treatment times (reduced by a minimum of 50%), with an integrated vacuum system, which reduces sensitivity to the skin allowing more sensitive areas to be treated.
